Skills Summary

A highly enthusiastic Creative Digital Media student in Cork Institute of Technology with a dedication and drive to work. Proven ability to plan, organise and research along with the skills to put these into action from my work at MyFutprint Entertainment, DePuy Synthes (a Johnson & Johnson company) and from my independent graphic novels.

HTML	CSS	JavaScript

Aug '12--Mar '20 Mentor sharing knowledge in the fundamentals of web design to children ages 7-17

Notable Awards, Acknowledgements and Publications

Best Selling Graphic Novels

Self-published, wrote and co-ordinated the comic anthology "PATCH" which was released in comic shops nationwide and became the best-selling indie comic in Cork City for 3 months. It was also published on Amazon's comiXology platform, where the likes of Marvel and DC are released. Follow up book, "SCRAP!!", outsold my previous successes up and down the country in shops such as Waterstones, at conventions and online.

CoderDojo Belts

Won and achieved all of the international CoderDojo certified belts. Notably:

Blue Belt – Recognition of Mentoring

Green Belt – Popular Environmental Project
